IBC SOLAR is presenting the efficient and high-performance IBC MonoSol 415 | 420 MS-HC-N anniversary module to you this year. The module is equipped with TOPCon cell technology, which achieves very high efficiency levels. This increases the module output over the same area. The module also impresses with improved temperature efficiency and reduces degradation with the LID and LeTID effect. In addition to the 30-year performance warranty, IBC SOLAR is extending the 15-year product warranty by a further 40 months as part of its 40-year anniversary.

You also benefit from:

- a positive power tolerance (-0/+3%)
- increased mechanical stability (5400 Pa)
- a German warrantor
- 100% tested quality
- an improved shadowing management thanks to half-cut-technology

1) The linear power and product warranty are only valid for installations within Europe and Japan. The warranty requires installation according to the valid installation instructions. Standard test conditions: 1000 W/m² irradiation with a spectral distribution of AM1.5 and a cell temperature of 25°C. 800 W/m², NOCT. Information according to EN 60904-3 (STC). All values according to DIN EN 50380. Errors and changes reserved. The precise conditions and content can be taken from the respectively valid version of the product and power warranty, which you can obtain from your IBC Premium Partner.

2) Loads according to IEC 61215-2:2016, max. design load

3) Measurement tolerances +/- 3% at STC: 1000 W/m², 25 +/- 2 °C, AM 1.5
